## **New I-95 Traffic Cameras Extend TrafficLand.com Coverage from Washington, DC to Fredericksburg, VA**

Web site's live traffic video coverage expands  
along congested highway corridor.

Fairfax, VA—The TrafficLand Company, based in Fairfax, VA, announced today the addition of seven new real-time traffic camera views in the Fredericksburg, VA area to its network. The new camera views, located along I-95, extend the continuous coverage available on [www.trafficland.com](http://www.trafficland.com) from Washington, DC to Fredericksburg, VA. The company's Web site and other real-time video-based services are used by commuters, public safety agencies, media and others.

"Our real-time traffic video services are used by commuters to avoid traffic congestion and by first responders to aid emergency response and incident management" said Lawrence Nelson, president of TrafficLand. "The ability to fill the last significant gap in our real-time traffic video coverage between Fredericksburg and Washington, DC will help our users make more informed decisions on where, when and how to travel along this very busy corridor."

TrafficLand.com currently shows real-time traffic views from over 3,500 cameras nationwide. A complete list of U.S. and international markets currently available can be found on the TrafficLand.com Web site at [www.trafficland.com/promo/network.php](http://www.trafficland.com/promo/network.php).

TrafficLand also provides specialized, secure access through its Video Distribution System™, to first responders, transit agencies and emergency management organizations, to assist routine and emergency operations and improve regional mobility and public safety. More information about TrafficLand services for government agencies can be found at [www.trafficland.com/gsa](http://www.trafficland.com/gsa).
